WHAT IS “BRAND ROYALTY”

Brand Royalty is a one-day, luxury brand, consumer-facing expo focused on high-end products and services in areas such as fashion, travel, real estate, cars, wine, art, yachts, and more. A limited number of companies will be invited to showcase their offerings to an affluent, high net worth, influential crowd. Beyond the expo itself, there will be VIP and social parties, fitting events, test drives, and other satellite elements.

WHY BECOME A VENDOR

The ability to showcase your brand in front of 1,000+ elite business people, influencers, VIPs, decision-makers, and other key individuals on any given occasion is extremely rare. Bringing together a notable group in an immersive, all-encompassing experience that transcends the typical “expo” or “trade show” experience is unique and special. The goal of Brand Royalty is to connect this select group with finest luxury brands in a setting that’s conducive to conversation, relationship-building, and trust.

ROI is the most important factor for any company to consider when determining whether to spend hard earned dollars. What drives that ROI is putting the right people in front of the right products and services - and that’s what Brand Royalty strives to achieve. By curating vendors and exhibitors selected for the expo and filling the room with a select, invite-only crowd, Brand Royalty eliminates needless dialogue and unnecessary conversations, matching only those who afford and appreciate luxury services and products with the associated brands.
